

August 2009

Dear Parents,

I hope I can answer a few questions regarding the “Flat Stanley” project. This project helps the second graders with geography. Your child, with help from you, will send his/her flat person OR contact friends and relatives at the following locations:

- Relatives and Friends that live in other areas besides San Francisco bay area
- Relatives and Friends that go on vacation

(Family and friends can send post cards or notes telling about the area that they live in or have traveled.)

If you choose to send the flat person to relatives or friends, please have them send the flat person and letter or postcard to school. If you choose not to send the flat person, and instead explain the project to relatives or friends, they will just need to send a letter or postcard to school.

This mail can be sent to:

St. Brendan School
2nd Grade
940 Laguna Honda Blvd.
San Francisco, CA 94127

After we receive mail at school, we locate the places on a map. At the end of the year, we end up with many letters and postcards from friends and relatives in different places. We hope to put these on display for you during Open House in March, along with our map.

I hope I have been clear about the project. Please call me or email me with any questions.
Thank you!

Mrs. Rabbitt

P.S. In the suitcases, the students wrote where they would like to visit. This does not mean they will actually visit this location. It is a “wish.”
